This guide has been created to optimize your participation in COEE 2020.

You may now access your Virtual Portal Account at any time, from any device, using a web browser and navigating to:

https://events.myconferencesuite.com/RSC_COEE/virtual/login

Simply type in your Email address and use the Confirmation Key provided in the email then click the “Log In” button.

**Viewing and Bookmarking Sessions**

Once logged in, you will see all sessions are organized by day and can be navigated by selecting the date or using the search function:
From here you can view the sessions Summary and the speakers that will be participating:

Prior to the live broadcast, you can add sessions to your personal schedule for easy access to the sessions you are interested in when they go live. To do this, click “Bookmark Session” and it will be added to the My Agenda tab that can be found on the top menu bar.

For sessions that have additional resources you can access these by clicking the Summary button and in the top right corner click Download Resources:
**Viewing Sessions as They are Broadcast Live**

On the date and time that the session is scheduled to go live, you can click the Stream button to access the link:

This will bring up a new webpage where the session is streaming live. There will be a Q&A chat box, a section to take Notes (which will be saved on your Profile tab) and any additional resources the session may have:
Troubleshooting

If you are having any issues with accessing the Virtual Portal webpage, or logging into your Portal account, there are a few steps that you can take:

- **Trouble related to accessing the Portal webpage** may be due to networking issues. You may want to check your internet connectivity (either wired or Wi-Fi) and ensure that you do not have the website in your blocked URL settings.

- When logging on to the Portal, please ensure you **use the email address and password that you were provided**. Double check the email address by checking the notification you received from the Portal.

- If you are using **autofill information** within the Portal when logging in, ensure that there are no blank characters before or after your user credentials.

- Ensure you are using the **latest version possible of your web-browser** as this will help with navigating the site and will allow you the most functionality of the Portal. This also helps to keep your browser safe from vulnerabilities.

- Ensure your **cookies and JavaScript settings** are correctly configured in your browser. If these may be causing you a problem, try resetting the browser back to factory defaults as mentioned above.
